EDUCATION

Chandigarh University Bachelor of Engineering(B.E) – Computer Science CGPA: 8.19	Mohali, Punjab, India 2020 – 2024
Dr. R.J.Y Evening Inter College Intermediate(XII) – BSEB – 75%	Gaya, Bihar, India 2018 – 2020
Pratibha Punj Public School Matriculation (X) – CBSE – 77.9%	Jehanabad, Bihar, India 2016 – 2017

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL, HTML, CSS

Frameworks & Libraries: React.js, Node.js, React Native, jQuery, React Query, Redux, Recoil, Axios, Formik

UI Frameworks: Material UI, ReactStrap, PrimeReact, Bootstrap, PrimeFlex, React Native Paper

Tools & Databases: MySQL, Git, GitHub, Visual Studio, Eclipse

EXPERIENCE

Full Stack Developer Webpristine Technology	January 2025 - Present
<ul style="list-style-type: none">Worked as a Full Stack Developer handling web development projects.Developed applications using ReactJS, React Native, and TypeScript.Utilized PrimeFlex, React Native Paper, and PrimeReact for responsive UI components.Integrated React Query, Redux, and Recoil for efficient data fetching and state management.	
Training Internshala (🌐) <i>React Training</i>	June 2022 - July 2022
<ul style="list-style-type: none">Successfully completed a 6-week online React.js training program with Internshala.Acquired a solid understanding of the fundamentals of React, including state management and component-based architecture.Skillfully incorporated RESTful APIs to improve user experience and data processing.Designed responsive and dynamic web apps with the use of contemporary React tools and frameworks.Showcased skills in front-end programming and user interface design by leading the development and successful implementation of an online e-commerce platform utilizing React.js, Redux, and Material-UI.	

PROJECTS

API Marketplace	Currently Working
<ul style="list-style-type: none">Launched an innovative API marketplace offering three skill levels for students at competitive prices, enhancing their learning experience.Developed an interactive frontend using React.js and a robust backend with Node.js, achieving seamless integration that enhanced user engagement metrics by optimizing load times to under 2 seconds.Integrated JSON Web Token (JWT) for secure user authentication and authorization, ensuring data protection and secure API transactions.	
Product Management Application	
<ul style="list-style-type: none">Developed a comprehensive project management tool that enables users to efficiently manage products, including adding, updating, and deleting items.Implemented with a React.js frontend and Node.js backend, providing a seamless and user-friendly interface.Engineered a robust user authentication system allowing new registrations and logins; implemented security measures with MongoDB that safeguarded sensitive information while maintaining efficient management of over 10GB of user data.	
Replica Weapon Store	
<ul style="list-style-type: none">Built a fully responsive Replica Weapon Store using React.js, Redux, and Bootstrap, offering seamless user navigation and dynamic product filtering.Developed a Node.js + Express.js backend to manage user authentication, product listings, and cart functionalities with secure RESTful APIs.Integrated MongoDB for efficient data storage and retrieval of user accounts, orders, and replica weapon inventory.	

ACHIEVEMENTS AND CERTIFICATES

• Java 8 and Spring MVC (Infosys Springboard)	February-2023
• Responsive RealWorld Website with HTML, CSS and JS (Udemy)	January-2022
• Attained both Java and SQL certifications from Hackerrank (Hackerrank)	February-2022
